**95 Express Phase 3B-1** will extend the High Occupancy Toll lanes from south of SW 10th Street to south of Glades Road in Broward and Palm Beach counties. Scope of work includes widening and converting the existing I-95 HOV Lanes to Managed Lanes which will result in two tolled Express Lanes in each direction; the number of General Use lanes will remain the same. Other activities include milling and resurfacing of I-95, construction of auxiliary lanes between Hillsboro Boulevard and Palmetto Park Road and construction of a northbound auxiliary lane between the SW 10th Street entrance ramp and the Hillsboro Boulevard exit ramp. Other project improvements include: guardrail, barrier wall, attenuators, shoulder gutters, drainage, dredging of Hillsboro Canal, bridge widenings at Palmetto Park Road and Camino Real, bridge replacement at Hillsboro Canal, temporary and permanent retaining walls, noise wall construction, sign structures, portable traffic monitoring sites, toll gantry installation, Intelligent Transportation System (ITS) installation, signing and pavement markings, Express Lane markers, lighting, ramp metering signals, utility relocation, and landscape relocation. Contract time for this \$102 million Design/Build project began Monday, July 10, 2017 with design and construction activities currently underway. Construction began January 19, 2018 and is expected to be completed Spring 2022. **Please note that this schedule is subject to change due to weather or other unforeseen circumstances.**

#### As of Spring 2021, project activities are as follows:

- Ongoing survey, roadway and bridge maintenance activities
- Asphalt paving on I-95 and ramps
- Punch list work
- Overhead sign structures, sign panels, and DMS installation
- Median lighting installation
- Intelligent Transportation System (ITS) infrastructure installation, including new HUB building and testing
- Toll plaza infrastructure installation and testing
- Roadway in final configuration

#### Upcoming Project Milestones (weather permitting):

- **Spring 2021:** ITS system infrastructure installation and testing along I-95 ongoing
- **Spring 2021:** Final paving and Express Lane Marker installation along I-95 NB
- **Spring 2021:** Final paving and Express Lane Marker installation along I-95 SB
- **Spring 2021:** Punch list work

## Maintenance of Traffic:

### Lane Closures & Traffic Impacts:

Lane closures occur in the I-95 work zone from 9:30 p.m. to 5:30 a.m. Sunday through Thursday and on I-95 entrance and exit ramps 11 p.m. to 5 a.m. Sunday through Thursday.

While the department makes every effort to minimize impacts to motorists, it will be necessary to close travel lanes and detour traffic at various times and locations to complete project-related work safely. **Lane closures will be scheduled to occur during the following days/times:**

#### I-95 lane closures:

##### Single lanes Closures:

9:30 p.m. – 5:30 a.m., Sunday through Thursday

##### Two lanes closed:

10:30 p.m. – 5 a.m., Sunday through Thursday

##### Three lanes closed:

11:30 p.m. – 5 a.m., Sunday through Thursday

##### Four or more lanes closed/full closure:

11:30 p.m. – 5 a.m., Sunday through Thursday

**NOTE:** Full closures of I-95 will be required to install overhead signs, etc. These will be advertised well in advance.

#### Local street lane closures:

Travel lanes on local streets will be closed approaching I-95 as needed for project related work. Affected roadways include Camino Real and Palmetto Park Road.

Local street lane closures will occur as needed from 9 p.m. to 5 a.m. Monday through Friday. Special coordination will occur as needed for full closures and/or weekend closures. Entrance and exit ramps will be closed as needed with electronic message signs providing advanced notice to motorists.

## Project Partners:

### 95 Express is being developed in partnership with:

- FDOT District Four, FDOT District Six and Florida's Turnpike Enterprises (FTE)
- Broward Metropolitan Planning Organization
- Broward County Transit
- Miami-Dade County Transit
- South Florida Commuter Services

The Design/Build team for this project is Prince Contracting LLC and WSP. Target Engineering Group, Inc. and CH Perez and Associates provide construction engineering and inspection services on behalf of FDOT.

### Project Benefits:

The goal of **95 Express** is to keep traffic moving at average speed of 45 to 50 mph in the express lanes. Motorists with a SunPass transponder are able to use these lanes by paying a toll that adjusts or varies by the level of congestion. Tolls will be higher during peak travel times and lower during off-peak travel times. Toll rates will be displayed on electronic message signs so motorists can choose to use the Express Lanes or stay in the non-tolled general use lanes. Tolls are collected electronically by an "open road tolling" (ORT) system – no toll booths and no stopping to pay.

For information about how you can use 95 Express toll-free, please contact South Florida Commuter services by calling **1-800-234-RIDE (7433)** or emailing [www.1800234ride.com](http://www.1800234ride.com).

### FLORIDA DEPARTMENT OF TRANSPORTATION MISSION STATEMENT

The Department will provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity and preserves the quality of our environment and communities.
