

FLORIDA DEPARTMENT OF TRANSPORTATION

95 Express Lanes Phase 3C Project

State Road (SR) 9/I-95 from south of SR 820/Hollywood Boulevard to south of SR 842/Broward Boulevard and SR 862/I-95 from US 441/SR 7 to SR 9/I-95

Financial Project ID Numbers: 409354-2-52-01 and 432222-1-52-01

Project Website: www.d4fdot.com

NEW TRAFFIC PATTERN ON SR 862/I-595 WESTBOUND TO FLORIDA'S TURNPIKE & SR 84 TO BEGIN AUG. 20, 2024

Beginning 5 a.m., Tuesday, Aug. 20, westbound SR 862/I-595 to the Florida's Turnpike and SR 84 will have a new traffic pattern. As part of the ongoing [95 Express Phase 3C project](#), the current SR 862/I-595 westbound ramp to Florida's Turnpike and SR 84 (Exit 8), and to US 441/SR 7 (Exit 9A-B), will be permanently separated into two ramps.

The new SR 862/I-595 westbound ramp to Florida's Turnpike and SR 84 (Exit 8) has been constructed slightly west of the existing ramps and will be open to drivers. The current SR 862/I-595 westbound ramp to Florida's Turnpike and SR 84 will be permanently closed. Exit 9A-B will continue to serve drivers traveling to US 441/SR 7. This new design aims to provide longer weave distances, improve capacity, and enhance safety and highway operations for the traveling public.

Safety is the Florida Department of Transportation's top priority and is embedded in everything we do. Drivers are encouraged to pay attention to the new signage and road markings and use caution when driving in this area.

This project will extend the existing managed lanes north from just south of SR 820/Hollywood Boulevard to just south of SR 842/Broward Boulevard in Broward County. One lane will be added and the High Occupancy Vehicle (HOV) lane will be converted to create two managed lanes in each direction. The number of General Use lanes will remain the same. Other project improvements include construction of the SR 9/I-95 and SR 862/I-595 Direct Connectors between the SR 9/I-95 Managed Lanes and SR 862/I-595, as well as reconstruction, milling, resurfacing, and widening of SR 862/I-595 from US 441/SR 7 to SR 9/I-95 and along SR 9/I-95 from south of SR 820/Hollywood Boulevard to south of SR 842/Broward Boulevard. Additional work includes bridge widening along SR 9/I-95 at several locations, the painting of 17 bridges within project limits, I-95/SR 84 interchange modifications, Integrated Intelligent Transportation System (ITS) installation, including traffic monitoring devices, detectors, and dynamic message signs to optimize traffic operations, tolling/gantry construction, ramp signalization implementation at the interchanges, lighting, signage, and drainage Installation and construction of shoulder-mounted sound walls and retaining walls.
