

FLORIDA DEPARTMENT OF TRANSPORTATION - DISTRICT FOUR

95 Express Lanes Phase 3C

I-95 from south of Hollywood Boulevard to south of Broward Boulevard and I-595 from SR 7 to I-95

Financial Project ID Numbers: 409354-2-52-01 and 432222-1-52-01

Westbound Taft Street Turn Lane and Sidewalk at I-95 to be Closed, Sept. 7—24

As part of 95 Express Phase 3C, westbound Taft Street at I-95 will have the right turn lane and sidewalk closed to traffic and pedestrians beginning 9 p.m., Tuesday night, Sept. 7 through 6 a.m. Friday morning, Sept. 24, so that crews can safely perform watermain relocation activities. During this operation, motorists will be able to make a right turn onto East Okomo from the general purpose lane, and pedestrian traffic will be detoured to the south sidewalk along Taft Street.

This project will extend the existing Express Lanes North from just south of Hollywood Boulevard to just south of Broward Boulevard in Broward County. One lane will be added and the High Occupancy Vehicle (HOV) lane will be converted to create two Express Lanes in each direction. The number of General Use lanes will remain the same. Other project improvements include construction of I-95/I-595 Direct Connectors between 95 Express Lanes and I-595, as well as reconstruction, milling, resurfacing, and widening of I-595 from SR 7 to I-95 and along I-95 from south of Hollywood Boulevard to south of Broward Boulevard. Additional work includes bridge widening along I-95 at several locations, painting of 17 bridges within project limits, I-95/SR 84 interchange modifications, Integrated Intelligent Transportation System (ITS) Installation, including traffic monitoring devices, detectors, and dynamic message signs to optimize traffic operations, tolling/gantry construction, ramp signalization implementation at the interchanges, lighting, signage, and drainage installation and construction of shoulder-mounted sound walls and retaining walls.
