CONSTRUCTION PROJECTS

INTERSTATES

1. State Road (SR) 9/I-95 from south of Hollywood Boulevard in the City of Hollywood to south of Broward Boulevard in the City of Fort Lauderdale and I-595 from I-95 to SR 7/US 441 in the Town of Davie (95 Express Phase 3C)

Description: Work on this 9-mile 95 Express project includes extending the existing Express Lanes north from just south of Hollywood Boulevard to just south of Broward Boulevard in Broward County. One lane will be added, and the High Occupancy Vehicle (HOV) lane will be converted to create two Express Lanes in each direction. The number of general-use lanes will remain the same. Other project improvements include the construction of I-95/I-595 Direct Connectors between 95 Express Lanes and I-595, as well as reconstruction, milling, resurfacing, and widening of I-595 from SR-7 to I-95 and along I-95 from south of Hollywood Boulevard to south of Broward Boulevard. Additional work includes bridge widening along I-95 at several locations, painting of 17 bridges within project limits, I-95/SR 84 interchange modifications, Integrated Intelligent Transportation System (ITS) Installation, including cameras, detectors, and dynamic message signs to optimize traffic operations, tolling/gantry construction, ramp signalization implementation at the interchanges, lighting, signage and drainage installation and construction of shoulder-mounted sound walls and retaining walls. For more information, please contact Interstate Community Outreach Specialist Daniela Silva at (786) 441-3088 or msilva@corradino.com.

Cost/Completion: \$457 million/ Spring 2025

I-95 Traffic Impacts:

- I-95 northbound, between I-595 and SR 84, has been shifted to the inside lanes to allow for widening and bridge construction operations. This pattern is anticipated to remain in place through summer 2024.
- I-95 in each direction, between Hollywood Boulevard and Davie Boulevard, may have up to three lanes closed, nightly as needed, 9 p.m. until 5:30 a.m., Sunday through Thursday. The first lane will close at 9 p.m., the second lane will close at 9:30 p.m., and the third lane will close at 10:30 p.m. and reopen at 5 a.m. All lanes will be open by 5:30 a.m.
- I-95 in each direction, from Hollywood Boulevard to south of Davie Boulevard, will have shoulder closures, daily and nightly, as needed, Sunday through Thursday.
- I-95 northbound between Hollywood Boulevard and Sheridan Street will have the outside lane closed nightly, as needed 8 p.m. until 5:30 a.m., and the shoulder, 7:30 p.m. until 6 a.m., Sunday through Thursday.

26. Queue Detection System Pilot Project at Four State Road Rail Crossings in Hallandale Beach, Hollywood, and the Town of Lake Clarke Shores

Description: Project improvements include testing of detectors and closed-circuit television (CCTV) cameras to identify vehicular queues near railroad crossings to be able to transmit messages to connected vehicles and warn drivers about potential conflicts. The project aims to test smart technologies to help improve safety for all roadway users near railroad crossings. The CCTV cameras will be used to verify the vehicular detector is operating as intended and provide additional coverage at the four proposed locations to aid incident management at these locations. This system will additionally enhance the existing 'DO NOT STOP ON TRACKS' flashing beacons at the crossings. For more information, please contact Assistant Community Outreach Specialist Alejandra Pozo at (561) 690-1807 or apozo@corrardino.com.

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only meets the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways, streets, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities.
