

SR 5/US 1/ Federal Highway Resurfacing, Restoration, and Rehabilitation (RRR) Project

Project County: Indian River County

Financial Number: 449812-1-52-01

Project Length: 4.222 Miles

Project Limits: State Road (SR) 5/US1/Federal Highway from north of 87 Street to south Sebastian Boulevard

Project Purpose: Repave and restripe the existing roadway to extend service life, improve rideability, and modify lane widths to reduce speeds and provide buffered bicycle lanes.

Public Meeting: Tuesday, August 26, 2025, at 6:00 p.m. and will be offered in-person and virtually simultaneously.

The **public meeting** will take place at the **North Indian River County Library** located at **1001 Sebastian Boulevard, Sebastian, Florida 32958**.

To participate in the meeting virtually from your computer, tablet, or smartphone please register using the link: <https://tinyurl.com/449812-1-SR5-US1ProjectMeeting>.

Participants can also use their phone by dialing in to **+1 562-247-8422**; Access code: **482-837-157**.

The public meeting will consist of a formal presentation followed by an open discussion. Staff will be available to answer questions and provide assistance. Comments and questions will be answered in the order received. If your question is not answered during the event, a response will be provided in writing following the meeting. Questions and comments may also be submitted prior to the meeting by contacting the Project Manager.

Anticipated Construction Start Date: Spring 2027

Anticipated Construction End Date: Summer 2028

Estimated Construction Cost: \$9.2 million

Scope of Work:

- Mill and resurface the existing roadway to extend the pavement surface life.
- Upgrade pedestrian curb ramps as necessary to comply with the Americans with Disabilities Act (ADA) standards.
- Upgrade signing and pavement markings to enhance safety for pedestrians.
- Reduce posted speed to 45 miles per hour (mph).
- Reduce travel lanes to 11-foot wide to provide 6-foot buffered bicycle lanes to enhance safety for bicyclists.
- Add keyhole bicycle lane between outside travel lane and right turn lane where missing.
- Update pedestrian detector (button) accessibility per current standards.
- Upgrade intersection lighting to Light Emitting Diode (LED) at the signalized intersections to enhance safety for pedestrians.

Construction Impacts:

- Work will be done in phases to reduce the effects of construction on the community.
- Temporary lane closures will be required during construction.
- Repaving and restriping will be performed at night.
- Access to businesses and residences will be maintained at all times.
