

## FLORIDA DEPARTMENT OF TRANSPORTATION

### STATE ROAD (S.R.) 9/I-95 AT S.R. 804/BOYNTON BEACH BOULEVARD INTERCHANGE IMPROVEMENTS PROJECT

From Old Boynton Road to NW 3rd Avenue in the City of Boynton Beach Palm Beach County, Florida

Financial Project ID Number: 435804-1-52-01

## EASTBOUND LANE REDUCTION AND TRAFFIC SHIFT ON BOYNTON BEACH BOULEVARD WEST OF THE I-95 INTERCHANGE — SPRING 2026 PROJECT UPDATE

Beginning Sunday night, Apr. 19, 2026, a lane reduction and traffic shift will be performed on eastbound Boynton Beach Boulevard to create a temporary work zone on the south side of the project limits from NW 8th Street to east of W. Industrial Avenue. Temporary barrier wall will be installed in the eastbound outside lane of Boynton Beach Boulevard in this area, and continue east to tie into the existing barrier wall at the I-95 interchange. East of W. Industrial Avenue, traffic will transition to the original configuration approaching the I-95 interchange. Barrier wall will also be placed along the I-95 southbound entrance ramp from Boynton Beach Boulevard and slightly shift traffic to create a work zone.

- The eastbound outside lane of Boynton Beach Boulevard just west of NW 8th Street will have traffic barrels installed to begin the eastbound lane reduction, leaving two (2) through lanes at the intersection
- Temporary barrier wall will be placed in the eastbound outside lane from NW 8th Street to east of W. Industrial Avenue to create a work zone for the next phase of construction on the south side of the project corridor, reducing travel lanes from three (3) to two (2) through lanes in this area only
- The northbound outside turn lane of NW 8th Street at Boynton Beach Boulevard will also be closed during this time, with only one (1) lane remaining for right, left, and through traffic movements
- This traffic configuration can be expected through late 2026 to perform road and bridge widening

### WORK ZONE SAFETY REMINDERS

- Please proceed with caution through the work zone, drive safely, expect delays, allow additional travel time, and seek alternate routes as needed.
- Lane and ramp closures will also continue for construction activities and bridge and ramp widening operations during this time. Please visit the [project website](#) for additional lane closure and project information.
